

Please do not enact a law that restricts Indiana's existing phone solicitor laws. Before I placed my families name on Indiana's "no call" list I was recieving 3-4 calls an evening from phone pushy persistent phone solicitors. Since I've put my name on the list we finally can have peace around our house in the evening. We do not purchase anything over the phone nor make contribution aggreements over the phone. Therefore we should not be subjected to these annoying phone calls. Its a waste of their time and ours.
